	ColdFusion		Premiere	
	MySQL			
	HTML			
	CSS			
	JavaScript			

EXPERIENCE

Asa Miller Design, 2002 - Present

Designed and built many portfolio, informational and e-commerce web sites for numerous clients in the United States and Canada. Also designed and produced numerous print pieces.

Designed and constructed a consumer information and wholesale/retail e-commerce web site, featuring the hundreds of products of Clearsnap, Inc., one of the largest manufacturers of ink pads and crafting products. This site is fun, highly organized and quite bandwidth efficient for customers and includes the 3D modeling and animation of products I did for their print and web promotions.

Vivacity Productions, Co-Founder, Portland Oregon, 2000 - 2002

A multimedia company, offering Flash animation, video and music production, as well as e-commerce and other web development for major ad agencies and local businesses.

CyberIsland Studios, Anacortes Washington, 1997 to 1998

As one of the key production staff for two CD-ROM titles, I did 3D modeling and animation, interactive presentations, video editing, print and digital support material and web site design for this company developing educational games for distribution by Panasonic Interactive Media.

ACTIVITIES

Designed, constructed and supported several social, political and community web sites.
